## NEW ZEALAND

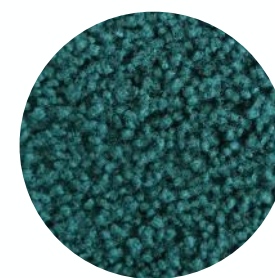

THE LUXURY GROUP

Introducing luxurious New Zealand slink baby lamb shearling; prized by the world's leading fashion houses and glove makers.

Each piece of shearling is hand-crafted by our artisans in the Deep South of New Zealand. Our team of expert craftsmen tan, dye, condition and brush the lambs wool. This showcases and preserves the beauty in nature, ready for presentation to you and your customers.

The pristine coastal and mountainous grasslands of New Zealand are home to our iconic sheep flock. It is only natural in such an environment that not all lambs will survive the challenges of nature. When this occurs we work alongside local sheep farmers to collect the very best material for tanning and finishing at the Slinkskins tannery. You and your customers can rest assured that we only work with materials from natural casualties.

Talk to us to find out more.

### COLOURS:

We offer your choice of wool and skin colour, (tone-on-tone or contrast) and have the capability to custom dye on request.
